About me

Born in 1985 in Tuy Phuoc, Binh Dinh, I am a lecturer at the Faculty of Civil Engineering, Lac Hong University. I have over 15 years of experience in teaching, as well as leading the design and supervision of civil and industrial projects.

Research Interests

Main Field: Issues related to the analysis and design of civil, industrial, and special structures. Teaching Subjects: Strength of Materials, Structural Mechanics, and other subjects based on Engineering Mechanics. Research Interests: Issues related to Computational Mechanics, Multiphase Materials, and Fracture Mechanics.

Personal Projects

Vice Director of
IBIM DONA Construction Co., Ltd.

Employment History

- 2009 - 2012: Teaching Assistant
- 2012 - 2021: Full-time Lecturer
- 2021 - Present: Head of the Fundamental Engineering Department

Educational Background

Ho Chi Minh City University of Technology

- 2004 - 2009: Bachelor of Civil and Industrial Construction Engineering
- 2010 - 2013: Master of Civil and Industrial Construction

VNU University of Engineering and Technology (Hanoi)

- 2017 - 2023: Ph.D. in Engineering Mechanics

Lac Hong University

- 2020 - 2022: Bachelor of English Language

Achievements

- Participated in and won a Provincial-level Technical Innovation Award;
- Received a University-level Research Award;
- Annually publish scientific papers in national scientific conferences and domestic and international journals such as: Finite Elements in Analysis and Design, Composite Structures, Applied Mathematical Modelling, Lac Hong Scientific Journal, etc.
